

## CAMBRIDGE CURRICULUM

Cambridge Curriculum at MCGS began in the year 2022-23 with a vision to provide student-centred educational programs that challenges all students to perform at their highest potential.

Effective support and assistance are tailored to meet the needs of the developing teachers.

Tutors and learners are exploring the curriculum together to make it a successful one.

We have an International Curriculum, Lower Secondary, IGCSE and are looking forward to A and AS level in 2024-25.

*“Research is formalised curiosity. It is poking and prying with a purpose.”*
